UN Sustainable Development Goals (SDGs)

Performance audit & PAS Involvement

INTOSAI Strategic Plan (ISP)

A premise:

PAS is an INTOSAI committee and should as such contribute in realising INTOSAI Strategic Plan (ISP)

ISP Crosscutting Priority 2

«Contributing to the follow-up and review of the Sustainable Development Goals (SDGs) within the context of each nation's specific sustainable development efforts and SAIs' individual mandates.»

Figure 1: The 2030 Agenda for Sustainable Development

- The UN 2030 Agenda and the Sustainable Development Goals

Crosscutting priority 2

Detailed in four approaches for SAIs:

1. Assessing the preparedness of national governments to implement, monitor and report on progress of the SDGs
2. Undertaking performance audits related to the SDGs
3. Assessing and supporting the implementation of SDG 16 and SDG 17
4. Being models of transparency and accountability

INCOSAI 2016: The Abu Dhabi Declaration

“Making a meaningful independent audit contribution to the 2030 Agenda for Sustainable Development»

- INTOSAI aims to become an authoritative independent voice on the challenges facing the global community in planning and implementing the SDGs and reporting on their progress
- INTOSAI plans to provide regular feedback to our own community on SDG-related audit issues
- INTOSAI will provide analysis and insight on a periodic basis to our international stakeholders on audit and accountability issues related to the SDGs

So...

What is the PAS going to do, if anything?

A suggestion from the Chair

- UNDESA and IDI are planning to come out with a cobranded document on lessons learned and audit findings from cooperative audits facilitated by IDI in time for the UN HLPF 2019.
- The suggestion:
 - PAS could join forces with IDI and UNDESA in producing and securing the quality of this document.
 - This will be our contribution to realizing the INTOSAI Strategic Plan on SDGs in the coming year.

Audit Objectives

Use Whole of Government approach on entire agenda or a goal or target

Audit Objective 1 – To what extent has the government adapted the 2030 agenda into its national context?

Audit Objective 2 – Has the government identified and secured resources and capacities (means of implementation) needed to implement the 2030 Agenda?

Audit Objective 3 – Has the Government established a mechanism to monitor, follow-up, review and report on the progress towards the implementation of the 2030 Agenda?

As said, the suggestion:

- PAS could join forces with IDI and UNDESA in producing and securing the quality of the lessons learned/audit results document.
- This will be our contribution to realizing the INTOSAI Strategic Plan on SDGs in the coming year.
- We have informally discussed the possibility with the IDI (no commitments have been made)
